

I would like to express my deep concern in this matter. I listen to K-LOVE every day, all day. Listening to these Christian songs and DJ's brings peace that carries over to everything I encounter. I could not imagine not having access to this positive programming on a daily basis. In my lifetime, America has experienced the worst of times since 9/11, and the world as a whole seems to be in turmoil. There are not enough encouraging things for people who are hurting to turn to. K-Love offers hope and peace through their message. To take that away from so many people who are positively affected by Christian music is a crime in itself, in my eyes. We have more than enough rock, alternative, and rap stations which seem to only offer corrupt messages anymore. Music has changed so much. As far as secular music goes, I am a fan of Classic Rock. The messages sent out through today's lyrics seem pointless and sometimes disturbing at best. I find no positive message in most music today and that is why I am asking that you do not take K-LOVE off of the FM translator service. Thank you.
